

Clothing in Hot and Cold Climates

Explore the ways that climate impacts clothing in different parts of the world. Try on clothing from the desert or the arctic. How does it feel? How do different hats keep you warm or cool? This kit has activities plans to help children explore geography, art and science.

Highlights: Clothes to try on: grass skirt, Afghan pakol, hijab, pith helmet, thawb, kaffia & agal; dolls, geographical games, books, art and science activities.

Appropriate for preschool – high school.

This Culture Exploration Kit made possible by generous donations from OSU Folk Club Thrift Shop, Mark Whitney, Bibi Momsen, CMLC volunteers and donors.

Additional materials you might like to provide: Craft materials for hat making, paper cups and Crisco (shortening) for science experiment.
