# About me

Art has been an essential part of my life since childhood. I remembered that the gifts used to be -and still are- notebooks, paper, and different kinds of pencils. I enjoyed handcrafting, watercolor paintings, scrapbooking, drawing in black and white and with colored pencils, and beading. Since 2012 I have been working as a speech-language therapist in Chile. Combining their passion for art and her career has allowed her to resolve complex clinical cases, work at schools, and teach as a clinical professor in some Universities to create and adapt playful activities for adults and children with speech and hearing disorders. In addition, she did volunteer work at nonprofit organizations in Chile such as “Hogar de Cristo,” “Un Techo para Chile” and “Corporación Nacer al Sonido” and am a volunteer at CMLC.

I enjoy different outdoor activities in Oregon in my free time, taking photos and hiking with her husband and her dog “Canela.”
